GivEnergy®
Australia

The #1 energy storage brand in the UK
Now available in Australia.

Run your home on battery power

 1300 GIVENERGY

www.givenergy.au

Join the clean energy revolution

Cut your costs with smart green energy solutions. With GivEnergy technology, you can power your home or business cheaply and sustainably.

When you use a product from the GivEnergy range, you're getting a premium energy management solution at an accessible price.

Who are we?

GivEnergy, the largest manufacturer of residential and commercial battery storage systems in the UK, enables customers to take control of – and save money on – their energy spend from end-to-end.

Now established in Australia, each year, the average GivEnergy customer saves up to 85% on their energy bills, and reduces their carbon emissions by 300kg.

Our range includes:

All in One

Our ground-breaking battery and inverter technologies, combined in one integrated product

Giv-Gateway

A companion backup gateway to protect your supply and keep you running during power cuts

9.5kWh Battery

Store energy from renewables, or use the grid to charge your battery overnight when energy costs are low

Gen 3 Hybrid Inverter

Providing simultaneous, smart and efficient management of the power from your solar panels, home battery storage system and utility grid

Stackable Battery

Combine power with flexibility. Use 3-6 batteries per stack to create the ideal power setup for your property

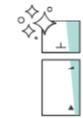

3-Phase Hybrid

Simultaneous, smart management of the power from your solar panels, home battery storage system and utility grid

All in One

Power your home for a fraction of the cost. Introducing the ultimate in smart energy management: the All-in-One.

Sleek

Your product is sleek, compact, and easy to install.

Powerful

Provides enough power to run even the most high demand devices.

Affordable

High quality performance, at an accessible price point.

Technical specifications

All in One

A one of its kind home battery and inverter – unrivalled for power and price point. Primarily working as an on grid system, the All in One can deliver 7.2kW of peak power into the home on top of any solar generation.

- 6000W nominal AC output power
- 7.2kW @ 10s, 6.5kW @ 30s peak power
- IP65 rating
- Dimensions 1100H x 280D x 600W (mm)
- 12 year warranty

An energy titan

The All in One may come to you in a convenient size, but it packs a major energy punch.

- **13.5kWh** capacity as standard – from a single battery
- Connect up to 6 systems in parallel and achieve **80kWh** of useable energy storage
- Ability to deliver an enormous **18.4kW** of power into your home

Giv-Gateway

A companion gateway enabling seamless switching between grid and battery, keeping you powered during outages. The Giv-Gateway also facilitates a connection point for solar PV systems, allowing continued energy generation even without a grid supply.

- 18400W nominal AC power
- Grid services ready
- Pre-installed energy meter
- Built-in LoRa
- 20ms switchover time
- Dimensions 410H x 370W x 190D (mm)
- 12 year warranty

5kW Gen 3 Hybrid Inverter + 9.5kWh battery

Just setting out on your renewable energy journey?

A **hybrid inverter** will help you get the most from your system – for maximum energy **efficiency**, and maximum **savings**.

Affordable

We make clean energy accessible to all. Get a premium inverter, for a great price.

Sleek

Electronic equipment needn't look ugly. Enjoy sleek, compact design.

Safe

Your hybrid inverter offers every protection to keep your home safe.

Robust

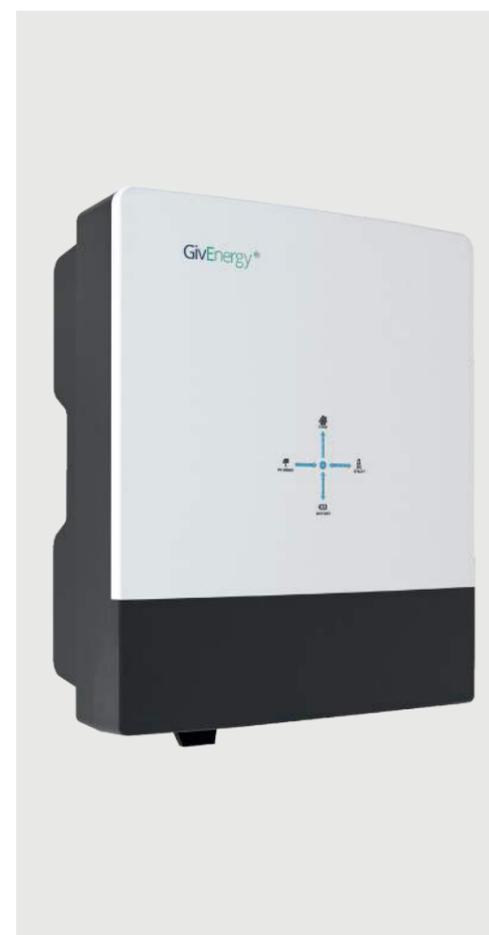

With water and dust resistance, our hybrid inverter is built to withstand the weather.

Efficient

Meet the energy needs of the modern home, with discharge rates of up to 11kW.

Connected

In-built WiFi and LAN give you a hard-wired network connection.

Single-Phase Hybrid Inverter

Perfect for the typical household where loads mainly comprise lighting, heating, etc. Providing simultaneous, smart and efficient management of the power from your solar panels, home battery storage system, and utility grid.

- 7.5kWp max. DC power
- 5000W nominal AC output power
- IP65 rating
- Dimensions 588H x 214D x 480W (mm)
- 10 year warranty

Giv-Bat 9.5

Our most powerful single home battery, with 100% DoD. Store power from your solar panels, or utility grid. Stop paying for peak energy charges. With a home battery storage system, you can store up free energy from renewables, or use the grid to charge your battery

- 9.5 kWh / 186 Ah capacity
- 100% depth of discharge
- IP65 rating
- Dimensions 800H X 242D x 480W (mm)
- 10 year warranty / unlimited cycles

Stackable Home Battery

3 Phase Hybrid Inverter

3-Phase Hybrid Inverter

Simultaneous, smart management of the power from your solar panels, home battery storage system, and utility grid. Stop paying for peak energy charges. With a home battery storage system, you can store up free energy from renewables, or use the grid to charge your battery

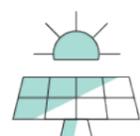

- 6kWp - 11kWp max. DC power
- 6000W – 11000 nominal AC output
- IP65 rating
- Dimensions 588H x 214D x 480W (mm)
- 10 year warranty

3-Phase Hybrid Inverter & Stackable Battery

A home battery stores up a supply of clean, usable energy for your home. It can take power from a generation source – such as solar, wind, or hydro – or from the grid using off-peak overnight tariffs. In the process, it allows you to save up to 85% on your energy bills.

Enjoy cheap energy day and night

Maximise your investment on renewables

Monitor and manage the flow of energy across your home

Run your home on battery power

With a GivEnergy system, you can run your home on sustainable battery power. Charge your home battery using renewables or off-peak grid rates. Then, use the energy stored in your battery to cheaply and cleanly power your home.

Stackable battery

Create the desired power capacity with a stacked setup. Create the desired power capacity with a stacked home battery setup. The GivEnergy stackable battery allows you to customise your power setup to create the ideal solution for your property. Combine power with flexibility

- 3.4kWh per battery pack
- 10.2kWh - 20.4kWh per stack
- Up to to 3 stacks paralleled (ie max 61.2kWh) per inverter
- IP65 rating
- 1085H x 380D x 480W (mm)
- 10 year warranty or 5,000 complete cycles!

GivEnergy portal

Exercise full control over your energy usage. The GivEnergy portal makes energy management easy — allowing you to monitor, manage, and analyse your system in the cloud.

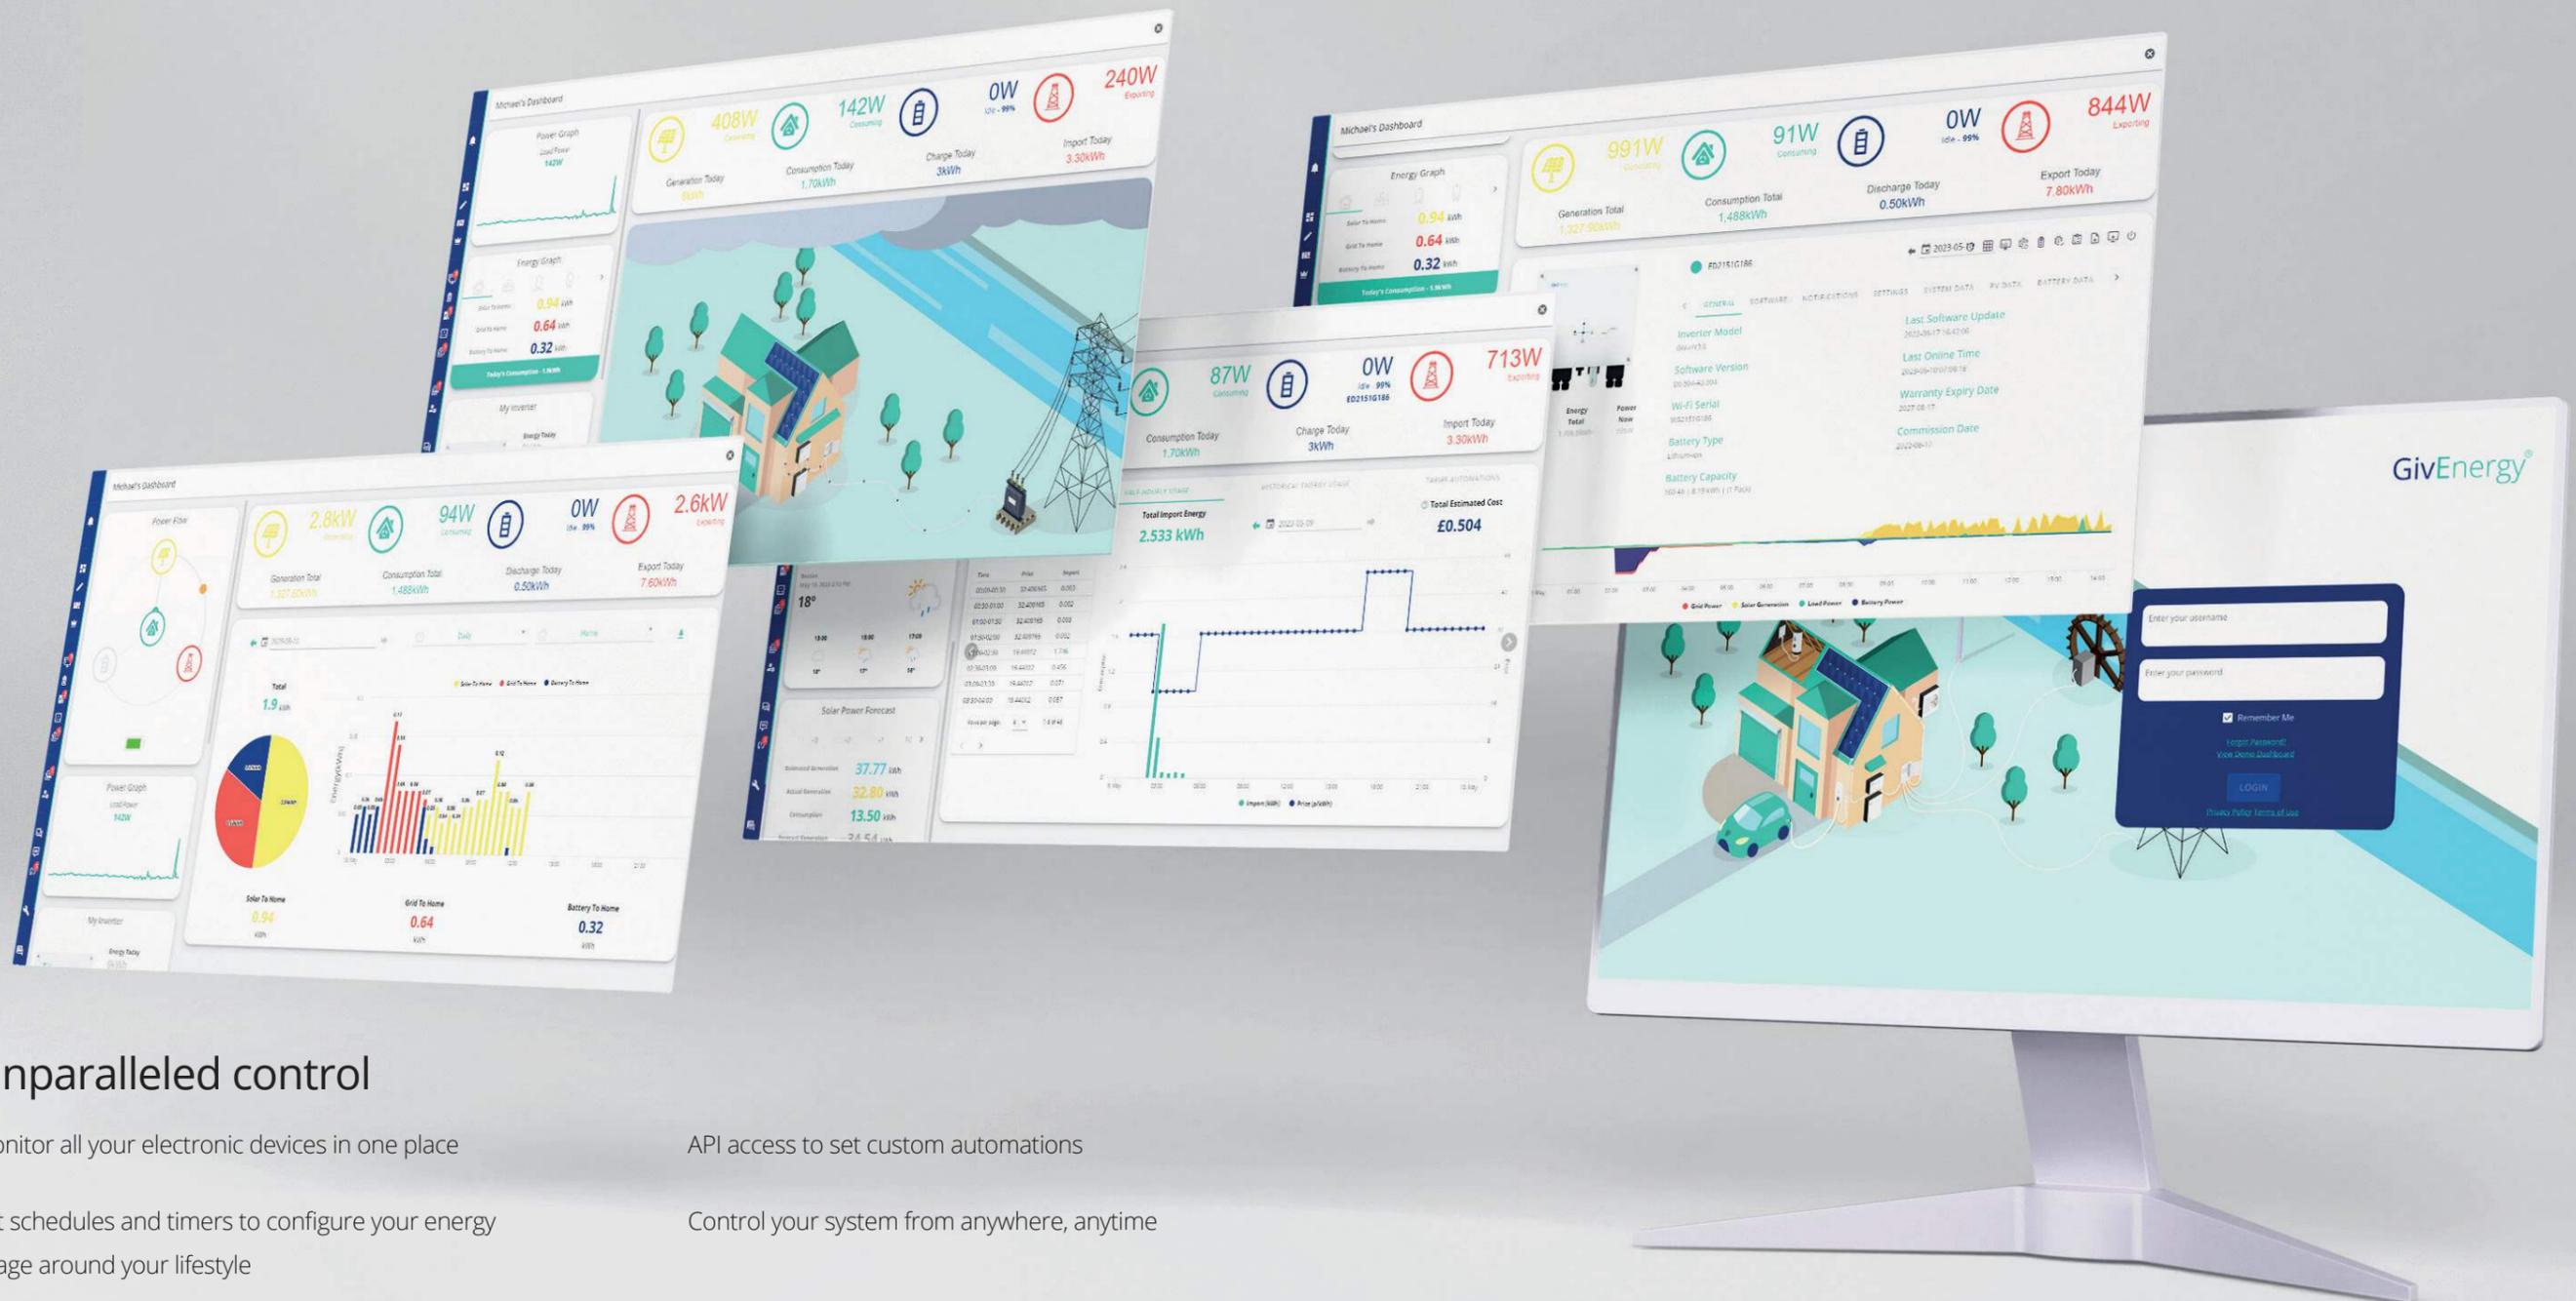

Unparalleled data access

Customisable dashboard unique to you and your setup

Easy to use, remotely updated, and free forever

Quick information and detailed power values alike

Graphs displaying your power usage and energy usage

Unparalleled control

Monitor all your electronic devices in one place

Set schedules and timers to configure your energy usage around your lifestyle

API access to set custom automations

Control your system from anywhere, anytime

GivEnergy app

Exercise full control over your energy usage. The GivEnergy portal makes energy management easy — allowing you to monitor, manage, and analyse your system in the cloud.

Your power, in your hands

- Grab basic information about your home energy demand, solar PV generation, and grid import energy
- Perform simple actions based on where the day is taking you
- Continually save and optimise

Download for free

- Download from Google Play or the App Store
- Moves with you – whether you're using your Android smartphone, iPhone, or Apple Watch
- Updated by a dedicated UK development team on a bi-monthly basis – to continually improve your experience

**"I am gonna say it. Pound for pound
the best battery in the world."**

Neil Bridgeman
